This scheme has been launched to ensure that anyone can take their share of food grains from any district of any state of the country. It is considered to be key to the success of the public distribution system (PDS). It empowers its eligible beneficiaries with the choice to lift their entitled foodgrain from any Fair Price Shop (FPS) of their choice, anywhere in the country, by using their existing ration card with biometric authentication on an electronic Point of Sale (e-Pos) device. Through this facility, a migrant beneficiary will be able to get ration at the destination he or she is working in. Even his/her family back home will be also allowed to get their part of the entitled ration to support itself. Every fifth family in India is still unaware about the benefits of the portability facility provided by this scheme.

Human capital is at the centre of World Bank Group's global strategy for development. Human Capital consists of the knowledge, skills, and health that people invest in and accumulate throughout their lives, enabling them to realize their potential as productive members of society. Investing in people through nutrition, health care, quality education, jobs and skills helps develop human capital, and this is key to ending extreme poverty and creating more inclusive societies. Human Capital Project was launched to accelerate more and better investments in people for greater equity and economic growth. World Bank Group annually releases an index that benchmarks key components of human capital across countries. The index covers 98% of world's population based on their potential to mobilise the economic and professional potential of its citizens.
